

## FOSS Science Day 21<sup>st</sup> March 2019

We invited the Year 6 pupils from Bucklesham, Bealings and Waldringfield Primary Schools to join us for a Science Day.

This is one of the opportunities we provide for the pupils to get to know each other before moving to high school.

The pupils were mixed together and put into three groups; Darwin, Curie and Franklin.

During the day they took part in two physics experiments and two chemistry experiments. They also took part in a biology experiment; examining how their bodies change during exercise, the names of different muscles and how to 'stretch' them.
